

#### 4. Evaluating

$$\Psi(\Phi(x, f, \hat{y}; \lambda); \tau) = \hat{q}$$

#### 3. Explaining

$$\Phi(x, f, \hat{y}; \lambda) = \hat{e}$$

#### 2. Modeling

$$f(x, \theta) = \hat{y}$$

#### 1. ROI Selection

$$\Theta(x, f, \hat{y}; y, \omega) = \hat{r}$$
